

## About the Product...

Electronic Rat control System is high Technology electronics Device like transmitter and emits high frequency sound called ultrasonic sound. Ultrasonic sound waves have frequency, above 20 KHz, which is the upper limit of the hearing range of the human ear. The powerful ultrasonic sound waves hit the eardrums of rats. As the rats do not have the ability to close their ear, they have to listen to the sound waves, causing pain, fear and anxiety and enabling them to leave the place.

## Advantage

- 24 Hours support
- 100% protection
- Creates Hygienic Environment
- Silent Operations
- Repels 42 types of Rodents
- 45 Days frequency rotations
- Huge effect Range
- Power Consumption 500 mA
- Harmless to humans and most house
- SAFE and CLEAN.
- Doesn't Kill Rodents- it Drives Them Out!
- Ultrasonic Rodent Controlling system with other products of shyam innovations

# Russell's Viper

## Specifications

Features	Auto Model URC1	Centralize Model URC20	Centralize model URC50
Input supply	230 Volts AC	230 Volts AC	230 Volts AC
Power Supply	500 mA	1 A	1.5 A
Area Covered	600 Cubic Sq.Ft	12000 Cubic Sq. Ft	35000 Cubic Sq. ft
Rodent Cover	42 Types	42 Types	42 Types
Frequency	25 to 65 KHz	25 to 65 KHz	25 to 65 KHz
